CAMPUS MANA AT A GLANCE

Campus MaNa is a unique international campus dedicated to crafts, design and architecture, founded by Thomas and Sophie Dariel. Nestled in a preserved green setting less than two hours from Paris, in Burgundy, it offers full immersion in nature.

Campus MaNa provides professional training led by renowned designers, craftspeople, architects, artists and

theorists. The programs combine hands-on making, conceptual input, creative methodology and technical learning.

All courses take place in residence, with participants immersed in the 37 hectares of the Campus MaNa site. They also enjoy hikes and organic local products shared around a welcoming communal table.

OUR TRAINING MODULES

Short training

Between 3 and 5 days to explore a specific craft (metal, wood, ceramics, color, innovation...) with an expert artisan.

Long training

Several weeks to design, analyze and carry out a project alongside renowned creators, specialized artisans and guest speakers.

In the studio of...

A one-day immersion in the studio of an experienced creator in Paris.

OUR TRAINING

A one-of-a-kind experience

Campus MaNa's innovative teaching approach is built on collaboration between designers, architects, expert craftspeople and theorists, who illuminate and enrich participants' creative journeys.

This multidisciplinary approach integrates various artistic fields and is complemented by hands-on experiences on campus. It ensures comprehensive training that combines theory, creative methodology and technical skills.

After Burgundy, we set our sights on Venice, where Campus MaNa Venezia is opening on the island of San Servolo, in the heart of the lagoon.

Step into a brand-new space dedicated to learning and creation, where artisanal excellence meets innovation.

On the 2026 program: exceptional masters, guardians of rare and precious craftsmanship. A master pleater, wood marquetry artisan, master glassmaker, plaster-stucco-staff expert and basket weaver will take turns passing on their gestures, materials and trade secrets.

WOOD TRAINING

Carving, turning and molding wood

5 days

With Samuel Latour

Shaping with a gouge

5 days

With Maxime Perrolles

Japanese joinery

5 days

With Victor Levecq

Introduction to basket weaving

5 days

With Catherine Romand

Wood ornamentation

5 days

With François Gilles

Boule marquetry

5 days

With Pierre-Henri Beyssac

KOGEI MANA: japanese program

Wajima-nuri lacquer

10 days

With Kentaro Moroishi

Building a Japanese tea house

10 days

With Masayuki Inaida

Explore Nerikomi

5 days

With Yuko Kuramatsu

Kanazawa gold, introduction to Gold Leaf

5 days

With Shinichi Maruoka

CARDBOARD TRAINING

Carving papier-mâché stone

5 days

With Mayeul Gauvin

Cardboard lace

5 days

With Marie-Anne Thieffry

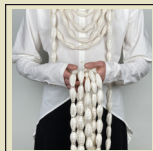

CERAMICS TRAINING

Small ceramics furniture

5 days

With Lætitia Perrin

Porcelain and carded wool

5 days

With Katia Terpigoreva

Mixed clays and glass inlays

5 days

With Lucie Le Boudier

Nerikomi : colored clays

5 days

With Yuko Kuramatsu

From raw clay to the object

5 days

With Marcela Paz Undurraga

Introduction to kurinuki

5 days

With Claudia Cauville

Korean moon jar ceramics

5 days

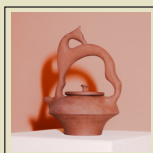

With Jongjin Park

Weaving porcelain

5 days

With Sophie Manessiez

Ceramics between function and imagination

5 days

With Zoé Grenaudier

Creating tableware ceramics

5 days

With Marion Graux

VARIOUS TRAINING

Glass-inspired plastic transformation

5 days

With Dorian Renard

The art of lava enameling

5 days

With Lydia Belghitar

Sculpting wax

5 days

With Mona Oren

Glass engraving

5 days

With Matteo Seguso

The art of vegetable lacquer

5 days

With Nicolas Pinon

Create your Spaces through Olfactory

5 days

With Carole Calvez
